Bright's Disease

Let there be no confusion—no mean chronic and supposed incurable case involving drugs, salutes and casts. They are curable in many cases. Let us cite a typical case—that of Mr. R. F. Nitsche of 1246 Spaight street, Madison, Wis. There had been slight symptoms on this case and it got so extreme that he finally had one of the last symptoms, namely, falling to the right. In January, 1907, the doctors admitted that nothing further could be done, and they sent him to Eureka Springs, Arkansas. He continued to get worse, the dropsy finally reaching the stomach, heart and lungs. He stated that at one time the tests showed albumen as high as 70. He learned of Fulton's Renal Compound and began to take it July 31. Dropsy began slowly to decline and the albumen dropped to forty, then to twenty, then to ten, and finally to two per cent in July, 1909. He had returned to his employment at last. Fulton's Renal Compound can be had in your city at J. O. O'Donnell's Drug Store. Send for free pamphlet and write us if not improving by this week. J. O. Fulton Co., 645 Battery St., San Francisco.

list of vacant land suitable for construction of these buildings already has been made, and it is proposed to ask for tenders for the construction of two complete blocks in the Avenue Emile Zola and the Rue de Javel immediately. It is proposed that the houses shall be available only for French families with children, and at first only for families that have lived in Paris at least five years previously. The authors of the project also propose that, if possible, there shall be reductions in rental according to the size of the family, and that rentals shall be fixed at 3 per cent on the capital outlay and depreciation on houses for families of eight children, 3 1/2 per cent on dwellings for families of seven children, 4 per cent for families with six children and 4 1/2 per cent in the case of the housing of families with five children.

PARIS PLANS TO AID POOR.

Construction of Low-Rental Houses for Working Classes Proposed.

Foreign Correspondence of The Star.

PARIS, April 13, 1912.

A continued agitation for lower rentals for working class houses in Paris has led the municipal council to issue the draft of a bill by which it proposes that a loan shall be raised for \$40,000,000 for the purpose of supplying municipally owned dwellings at reasonable rentals.

The proposals, which are the work of three councillors, would give considerable benefit to large families. The proposed rentals are, for families with three children or fewer, four rooms, \$80 a year;

Taft to Speak Out

Decides to Respond to the Roosevelt Attacks.

GOES TO MASSACHUSETTS

Friends Say Aggressive Campaign Will Guarantee Nomination.

TO SPEAK FROM THE RECORD

Indications of Lively Times in the Old Bay State the Coming Week.

If President Taft's present purposes are not changed, this week will be the liveliest of the campaign for the republican nomination, and it may determine the outcome of the fight.

All available information is that President Taft, who for the first time goes after Roosevelt by name in the speeches to be made Thursday in Massachusetts, to which state he is to go in the hope of winning its delegates.

The President's friends are confident that if he puts the right kind of a fight on Roosevelt he will carry Massachusetts and change the tide that seems to be against him and in favor of the former President. According to the same men the President, if he is not vigorous and effective in his speeches, may lose Massachusetts and the nomination.

Republican leaders who visit the White House emphasize in their assertions that the President can and will win the nomination if he is aggressive and places himself in a true light, as he is said to be in position to do through possession of indisputable facts, but the President follows his methods of the past his nomination is by no means assured.

President Resents Assaults.

The President has had all these things put before him, but cares little as to what others may think of his position, so long as he satisfies his own consciousness that he is acting right. The President, however, already indicated in The Star columns, feels bitterly the personal assaults made upon him by Roosevelt when, it is asserted, Roosevelt is charged with having known positively that the statements he made were not founded upon fact. The attack that the President is to deliver will be upon the veracity of the former President and promises to bring a hot retort from the colonel.

There are evidences, however, of believing the political swing is now with him, will become more conciliatory in his speeches and actions, hoping to show things so that the bitterest enemy in one branch of the party may be modified before election day. Just what the course may be under the leadership of President Taft his own managers do not know.

It is conceded today that the speeches of President Taft this week, or any other action he may take, will be crucial to a large extent, and the situation is so clearly hope that he may fully see this, and act accordingly.

Mr. Gardner's Challenge.

The most serious intimation against Col. Roosevelt likely to cause him worry now and after June next, should he be nominated, is in allegations made by Representative Gardner in certain questions he asks Col. Roosevelt in a telegram sent out Saturday night. In this telegram Representative Gardner dares Roosevelt to make public certain correspondence between him and President Taft relating to Taft's position as to Senator Lodge, and pointedly suggests that Col. Roosevelt has known all along that the correspondence was unfavorable to him.

Mr. Gardner then asks Col. Roosevelt whether it is true that he stopped certain trust proceedings before the Federal Reserve board, and whether he has not involved his friends or their interests. Mr. Gardner, it is intimated, is in possession of facts showing that the Federal Reserve department of Justice contain direct evidence that the backing being given Col. Roosevelt by George W. Perkins is based on a scheme to give Col. Roosevelt a loan of from 5.7 per cent to 6 per cent.

U. S. LARGE FACTOR

Leads in Absorption of Gold and Expansion of Credit.

INDIA'S SHOWING NOTABLE

Argentina and Brazil Enter Circle of Gold-Using Nations.

ENGLAND AND GERMANY LAG

Annual Report of Director of the Mint Roberts Gives Figures for Twenty-One Years.

From \$123,000,000 in 1890 to \$454,000,000 in 1910 is the increase marked in gold production, according to the annual report of George B. Roberts, director of the mint, which has just been made public. This period of twenty-one years covers what has been called the "new golden era," explains the director, beginning with the discovery of the Transvaal gold field and of the cyanide, and his review of the production and distribution of gold during the twenty-one years undertaken to trace the new supply of gold into use, showing the estimated consumption in the industrial arts, the absorption of Asia, the amounts taken by new and developing countries and finally the amounts that have entered into the bank reserves of the important commercial countries.

India's Showing Remarkable.

The most striking feature of the review, it is declared, is the showing of increased absorption of gold by India, whose trade balance upon a gold basis has settled principally with silver and gold since 1890. From 1890 to 1909 the net imports of gold into India plus that country's own production amounted to \$135,000,000, and for the year ending 1910 to \$180,000,000. For the British fiscal year ending March 31, 1911, it amounted to \$30,487,000, or about one-quarter of the world's production after the industrial consumption was deducted.

The review shows that important amounts of gold have been taken during the twenty-one years by countries outside of the old world. Argentina and Brazil within the last decade have established their currency on a gold basis, and have acquired \$244,000,000 of that metal. Japan, Mexico and other countries adopted the same policy, each with a moderate accumulation of gold.

Moreover, it appears that of the gold required by European countries the larger part has been used for the organization of monetary systems and to strengthen and fortify certain great institutions, the need for which has been felt for political reasons. Thus of the amount taken by European banks during the first period, which was \$266,000,000, the sum of \$26
